

Momentum Real Assets Growth & Income Fund Class L GBP Acc

31 October 2025

This is a marketing communication for professional advisors only

Investment objective*

The portfolio aims to achieve a total return of at least 7% per annum including income of at least 3% per annum over the recommended minimum investment horizon (6 years).

The Fund will be actively managed, seeking to achieve its investment objective or gaining exposure to 'real assets' such as real estate or infrastructure related assets by primarily investing in listed companies, including Investment Trusts and Real Estate Investment Trusts (REITs), collective investment schemes and other similar schemes. This encompasses a range of asset classes and currencies in varying proportions over time, with an overall bias towards asset classes that have the potential for capital growth.

Manager commentary

- » Specialist assets delivered broadly positive returns in October, supported by lower bond yields. Infrastructure, property, private equity and specialist financials all contributed positively to performance.
- » Gold was the only asset class which detracted from performance, with gold producers down -4.25% after a strong year-to-date gain of over 100%, while physical gold rose amid ongoing geopolitical uncertainty.
- » Within the Fund's defensive assets allocation, long-dated UK nominal and index-linked gilts performed particularly well. Bond markets benefitted from declining yields following a 25bps Federal Reserve rate cut and softer-than-expected UK inflation. UK gilts returned 2.9% in aggregate, with long-dated conventional and index-linked issues leading the gains.
- » Within infrastructure, Gore Street Energy Storage Fund (GSF) was among the strongest contributors. The company declared a special dividend and outlined plans to optimise its portfolio through selective asset sales, co-investments and upgrades to existing sites.
- » In private equity, Molten Ventures (GROW) contributed positively following a H1 trading update showing growth in both gross portfolio value (+5.5%) and NAV per share (+7.2%).
